Pilates Chair

The Pilates chair is a powerful device in Pilates equipment. Improve the performance of athletes through the strength of the upper and lower body, perform rehabilitation training and improve physical condition after injury. Fitness easily, release stress, enjoy a healthy body. The form of motion of the steady chair is to move the body up and down, challenging the balance and strength of the body. This stable chair adopts a unique spring replacement system, which can change the difficulty of movement more conveniently, and also effectively protect the equipment. This device is not only used as a single person, but also can be changed into a group course. The training of hundreds of movements can fully meet the requirements and influence of group courses.
